

Grant for Technology

NONPROFITS PROJECTS ONLY

Nonprofit's Idea + Grant + Technology

Hey— You should really apply for this funding. Online. 25 Minutes.

80/20 **Grant for** Managing & Inspiring Donors

80/20 **Grant for** Tracking Client Journeys and Outcomes

80/20 **Grant for** Measuring Your Missions Impact

80/20 **Grant for** Simplified Client Onboarding

80/20 **Grant for** Operationalizing Your Strategic Plan

80/20 **Grant for** Practical Idea To Improve Your Process

TechBridge is interested in how technology enables your idea.

Nonprofit staff and volunteer boards often brainstorm great ideas but lack the resources to develop them with the latest technology. Georgia Dream Big technology grant offers grant recipients funding and experience.

Nonprofits will be applying online for grant dollars beginning February 15. Our staff and judges have created a fairly simple online application that should only take about 25 minutes to complete. This is one of the few grant opportunities focus on nonprofits getting and using software technologies (plus IT hours) to help fulfill their missions. Last year several transformational projects were awarded between \$8,000 and \$24,000– and it all starts by completing the online grant application.

The good news is that TechBridge pays for 80% and becomes your project partner. It is definitely worth 25 minutes to fill-in-the-blanks. You'll find a helpful worksheet to make completing the application extra easy.

A TechBridge Grant

Which nonprofits organizations have been awarded the Grant?

Nonprofit organizations include crisis centers, free clinics, homeless shelters, criminal justice advocates, after school learning, career pathways, food pantries, anti-teen trafficking, multi-layer case management, and more.

Grant for Technology

NONPROFITS PROJECTS ONLY

Yikes! How do I guesstimate the cost of an IT project?

Your main role as the project champion for your nonprofit organization is to describe your idea and the situation you want to tackle –using technology. Then, TechBridge will scope the likely steps and investments to help ballpark the project’s cost. Each nonprofits situation is different.

How does the 80/20 Grant work?

The 4x match formula of the grant is 80/20, meaning TechBridge funds 80% of the project and the nonprofit funds 20% through its funders.

Project Cost	TechBridge Grant	Nonprofit Portion
\$5,000	\$4,000	\$1,000
\$7,000	\$5,600	\$1,400
\$10,000	\$8,000	\$2,000
\$16,000	\$12,800	\$3,200
\$20,000	\$16,000	\$4,000
\$25,000	\$20,000	\$5,000
