

bringing IT leaders together to build a better future

# ∞ ALLIANCE

powered by TechBridge®

**SEPTEMBER 21, 2023 | ELEVANCE HEALTH**

## **AI AND THE FUTURE OF WORK**

TechBridge's CxO Alliance event focused on AI and the Future of Work, bringing together C-suite and executive leaders of Fortune 100 and 500 companies to engage in dynamic discussions on a pivotal and emerging subject that not only influences the technology landscape but also reshapes the very fabric of our work environments.

Our CXO events have built a reputation as forums that bridge the worlds of public, nonprofit, and private sectors, facilitating the exchange of ideas, innovation, and the establishment of meaningful partnerships.

Throughout the discussions, participants gained invaluable insights into critical topics, including the impact of AI on employment, addressing technical bias, navigating government regulations, upholding ethical standards, ensuring equitable access to funding opportunities, and providing essential training for underserved communities.

Key Metrics from our event:

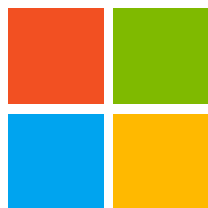

---

About the event series: Our CxO Alliance events are fireside chats and forums led by Fortune 100 and Fortune 500 companies. These events provide sponsors access to thought leadership discussions.
